Creating a Space

CREATING A SPACE

**If you create the space,
God will fill it.**

CREATING A SPACE

The Story of Bill

Impact Campus Ministries exists to pursue, model, and teach intimacy with God.

SUCCESS

Success is developing intimacy with God and community with each other, through a living relationship with Jesus. We believe an individual who is developing intimacy with God, in the context of Christian community, will make an impact for the Kingdom of God.

SUCCESS

A team of individuals who make an impact for the Kingdom of God will have a fruitful ministry. Though we do not aim for “making an impact,” and we do not aim for “fruitful ministry,” we recognize that these two things will supernaturally occur when individuals develop intimacy with God in Christian community.

SUCCESS

Ministry is the product of our love for God, and an expression of a heart devoted to God. We must not allow “ministry for God” to crowd “intimacy with God” out of our lives.

SUCCESS

We cannot control “making an impact” or “fruitful ministry,” but we have absolute control over developing intimacy with God and being devoted to one another.
